25X1	

1. Between 10 and 12 February 1951, the Panzer Kaserne or Albert Kaserne in Kamenz (N 52/A 41) was occupied by troops who wore red-bordered black epaulets, some with tank insignia. [REDACTED] 120 officers were served meals there. A truck-mounted rail-tube rocket launcher, a T-34 tank and motor vehicles [REDACTED] were seen in the barracks yard. All drivers and assistant drivers of the vehicles wore red-bordered black epaulets without branch-of-service insignia. A sentry who also wore red-bordered black epaulets without branch-of-service insignia stood in front of the new sentry box at a point 50 meters from the intersection of Lacherstrasse and Heinostrasse.
2. It was observed from January to 12 February that troops from the Panzer Kaserne occasionally practiced with AA machine guns on tripod mounts in four prepared positions on the northern edge of the billeting area, about 250 meters east of the Kamenz-Berabruch road. *

[REDACTED] Comment. The 45th Gds Tank Regt of the 11th Gds Tank Div is believed to be stationed in Kamenz. The number of officers specified in the present report and the rocket launcher observed in the Panzer Kaserne indicate the possibility that the 53d Gds RL Bn of the 11th Gds Tank Div may also be stationed there.
